

TIPS FOR LANDLORDS

DURING COVID-19

CHECK-IN WITH TENANTS

Touching base with your tenant to see how they/their families are doing shows you care and can be a proactive step in making you aware of any health changes or hardships.

PROVIDE RESOURCES

A Tenant Tip Sheet has been developed for landlords to distribute during this difficult time. Family Promise staff also have an abundance of knowledge about available resources in the community. Households may contact the organization for access to resources.

REACH OUT IF YOU NEED HELP

An array of services for landlords and tenants are available. Tenants with financial hardships will be connected to critical resources to maintain rent payments. Temporary Rental Assistance may be available depending on their situation.
